

Setting up a SurfStation requires only the most basic skills.

1. Locate the SurfStation on a suitable surface.
2. Plug one end of the CPU power cord into the proper plug on the back of the SurfStation and the other end into the included power strip.
3. Plug one end of the monitor power cord into the proper plug on the back of the monitor and the other end into the included power strip.
4. Plug the power strip into an electrical wall socket
5. Plug the monitor into the connector into the back of the SurfStation
6. Plug in the mouse and Keyboard connector into the back of the SurfStation
7. Plug in the Ethernet cable into an Ethernet hub or LAN connection
8. Turn on the SurfStation.
9. The SurfStation will automatically connect to the Internet.
